

# GAJANAN ENGINEERING WORKS

**Manufacturers of :** Automobile Industrial Radiators, radiators parts, Cores, Oil coolers and Sheet Metal Components

## A BREIF PROFILE

We are one of the best & leading manufacturer of Radiators & Radiator accessories in India since 1992 with an exclusive aim of manufacturing specialized items in **COPPER & BRASS RADIATORS**, an **ISO 9001:2008** certified manufacturing unit having high importance and potential of manufacturing quality products.

We **manufacture, the;**

<b>Automotive Radiators</b>	: Car, Pick-Up, Jeep, Truck, Cummins & Bus Radiators
<b>Industrial Radiators</b>	: Crane and Earth Moving, Heavy & Light Duty Radiators
<b>Commercial Radiators</b>	: Generator for Power Plant & Ice Plant
<b>Agricultural Equipments</b>	: HMT, URSUS, FORD, INTER, MASSEY

### **Radiator Parts & Accessories:**

(All Types of Standard Models/as per Samples and/or Drawings)

- Industrial Radiator Cores
- Transmission Oil Coolers
- Sheet Metal Components
- Radiator Brass Tanks
- Radiator Side Brackets
- Radiator Filler-Necks
- Brass Pipes Inlet/Outlet
- Cab-Heaters
- Small Heat Exchangers
- Fuel & Hydraulic Tanks

Our products range covers both Automotive & Commercial Radiators as well as for Earthmoving equipments, Nut/Bolt (Flat Bolted) Construction of all types of European Models in position (Unipack & Unifin construction).

Apart from above, we are also manufacturing and supplying sheet metal components like Hand Brakes, Hub Cap Trail wheels, Primary Upright strips, expansion plugs, air cleaner clamps etc used for forklifts and heavy vehicles.

We are following the Original Equipment Manufacturer (OEM) design parameter technique. We manufacture radiators as per the American, German, Japanese & Korean Vehicle Specifications. We develop our own tool sets for our manufacturing process which enables us to produce a customizable product that satisfies customer's requirements at more competitive price and high quality.

Presently we supply our products to Middle Eastern Countries, European Countries, African Countries, Australia, West Indies, U. S. A. & in the Indian Sub-Continent. We have a status of OE supplies to M/s. Voltas Ltd & M/s. Godrej & Boyce Mfg. Co. Ltd for their Material Handling Divisions in Mumbai, India. Our export of Radiators and related accessories enabled our products reaching global market.

Our products lists comprises most of the vehicle manufacturers across the globe such as **Mercedes, Toyota, Nissan, Volvo, Tata, Suzuki, Hyundai, Honda, Ford, Massey Ferguson** etc for their different products as per requirement of customers.

Quality is of utmost importance to us and therefore, we strive to implement Total Quality Management practices in our organization. The raw materials used for manufacturing our products are sourced from trusted vendors who are well known for their products quality. These products are processed through different stages that are monitored by the team of production supervisors. Also, our well qualified and experienced quality controllers inspect each production stage to ensure that the products are manufactured as per the given guidelines. The finalized products are checked on different quality parameters to assure total value to our clients.

Looking forward to have an opportunity, to have a reliable and good business relationship with your organization.
